

DRS-100B Diver Recall System

The DRS-100B Diver Recall System is U.S. Navy Approved and is used by Naval Special Warfare units, and well as by salvage divers from around the world. It is to alert all divers within range with either voice, a solid tone or an intermittent tone. You can also feed sound into the water, like music, via a line-in jack on the front panel. The DRS-100B also has a listen mode allowing the user to listen to marine and/or man made noise. A record-out jack receptacle allows the user to connect the unit to a recorder.

The DRS-100B is portable and comes standard with a rechargeable batteries, charger, hand-held mike, and transducer with cable.

Specifications

| | |
|------------------------|---|
| Nominal Range: | 100 meters voice and 300 yards tone |
| Frequency Response: | 500 to 4000hz |
| Input Current/Voltage: | 7 amps maximum/24 VDC |
| Audio Power: | Recall Tone@132 Watts, Voice@132 Watts Adjustable |
| Idle Current: | 75ma |
| Microphone: | Hand Held with Push-to-Talk Function |
| Transducer: | Anodized Aluminum Lubell |
| Power Source: | 12 VDC Rechargeable Batteries |
| Battery Life: | 5 hours @ 20% Duty Cycle (Recall Tone) |
| Depth Rating: | |
| Housing Material: | High Impact, Polycarbonate |
| Dimension: | 17cm(H) x 36cm(W) x 28cm(D) |
| Weight: | 6Kg |
