## TAC-100 Diver Navigation Board

The TAC-100 Underwater Navigation Board is the original combat swim board used by Special Forces around the world. First developed for the U.S. Navy SEAL Teams and Army SOF, the TAC-100 integrates the TAC-DG/M Depth Gauge, TAC-CHRON Dive Chronometer and TAC100-2 Underwater Compass onto a rugged and lightweight high impact plastic board with easy-to-grip handles. The TAC-100 comes with a padded carrying bag for transport and can be ordered in a variety of different configurations.

## TAC100-2 Underwater Compass

Designed for combat swimmers by Ritchie & Sons, the TAC100-2 utilizes a black compass card with luminous markings to indicate heading. Internal lubber-lines keep the diver on course. Designed to withstand the rigors of the marine environment, the TAC100-2 is a quality underwater navigation compass that is reliable, serviceable and cost effective.

## TAC-DG/M Analog Depth Gauge

The TAC-DG/M is a field proven, analog depth gauge used by combat swimmers worldwide. Depth is accurately measured from 0 to 16 meters with a Zero Adjustment feature to correct for errors caused by temperature and barometric pressure. Black dial face with luminescent scale and Tritec points. Also available in a depth range of 0 to 50 feet.

## TAC-CHRON Dive Chronometer

Used by combat swimmers and professional divers worldwide, the TAC-CHRON uses a large easy-to-read backlit LCD to display both total time and leg times during a dive. Leg functions and back lighting are accessed by push buttons on both sides of the watch case.

## TAC-100 Specifications

Size:	12"L (30.5cm) 10"W(25.4cm) 5"H(12.7cm)	Board Material	Black ABS
Weight in Air	3lbs (1.35Kg)	Compass Illumination	Adjustable Chem-Light
		Compass Tilt	20° N&S and 40° E&W
		Depth Gauge Range	0—16M (0-50ft Optional)

# MILITARY COMBAT SWIM BOARDS

## TAC-200 Combat Swim Board

The newest addition to our combat swim board product line, the TAC-200 Combat Swim Board is smaller and lighter than the original TAC-100. Its compact design and highly visible underwater compass makes the TAC-200 very accurate and easy to navigate, even in the poorest visibility.

Designed for the U.S. Navy SEALs, the TAC-200 Combat Swim Board comes with the TAC200-2 Underwater Compass, TAC-DG/M Depth Gauge, TAC-CHRON Chronometer, and padded storage bag. The TAC-200 can be ordered in a variety of different configurations.

## TAC200-2 Underwater Compass

Designed by combat swimmers for accuracy and reliability the TAC200-2 uses the latest in luminous technology to provide hours of use even in poor visibility. Using an adjustable bezel with luminous markings and a floating ball in the compass dome, the TAC200-2 will keep you right on course and level even during the longest swims. Finally, a cost effective and rugged underwater compass designed for combat swimming.

## TAC-DG/M Analog Depth Gauge

The TAC-DG/M is a field proven, analog depth gauge used by combat swimmers worldwide. Depth is accurately measured from 0 to 16 meters with a Zero Adjustment feature to correct errors caused by temperature and barometric pressure. Black dial face with luminescent scale and Tritec points. Also available in a depth range of 0 to 50 feet.

## TAC-CHRON Dive Chronometer

Used by combat swimmers and professional divers worldwide, the TAC-CHRON uses a large easy-to-read backlit LCD to display both total time and leg times during a dive. Leg functions and back lighting are accessed by push buttons on both sides of the watch case.
