

TS200 Acoustic Test Set

TS200 Acoustic Test Set

The TS200 Ultrasonic Test Set by Dukane is a rugged and cost effective tester designed to check the battery health and operation of the DK-100 Emergency Locator Beacons.

Battery operated, the TS200 is easy to use and allows for testing of the beacons in or out of the beacon's mount.

A LCD readout indicates battery status, while beacon operation is confirmed by an audible "ping" from the TS200.

Although calibrated at the factory, the TS200 can be calibrated in the field by using the CT200 Calibration Set.

Ultrasonic Test Set Specifications

Size: 3.3" (8.4 cm) x 6.5" (16.5 cm) x 1.2" (3.0 cm)

Weight: 13 ounces (368 grams)

Battery*: 9V

* Need Type 1604A
