0-330 ft / 0-100m  
Leg, Dive & Surface Timer

*Specifications are subject to change without notice*

- ◆ **Lightweight**
- ◆ **Easy-to-grip handles**
- ◆ **Internal lubber-lines**
- ◆ **Includes padded carrying bag**

The **TAC-100** Underwater Navigation Board is the original navigation platform used by professional divers around the world. The TAC-100 integrates an underwater compass onto a rugged and lightweight high impact plastic console with easy-to-grip handles. The underwater compass utilizes a black compass card with luminous markings to indicate heading. Internal lubber-lines keep the diver on course. A built-in adjustable chem-light holder on the console illuminates the compass for night operations.

The TAC-100 can be supplied with analog instrumentation, in feet or meters, or go digital using the DG100 depth gauge and timer.

### **Ordering Part Numbers**

TAC-100AI Complete Navigation Board with Analog Imperial Depth Gauge (0-200ft) and Diver Chronometer

TAC-100AM Complete Navigation Board with Analog Metric Depth Gauge (0-60M) and Dive Chronometer
