

DIVE-SCAN™ Professional Sonar System

- ◆ Checks water depth
- ◆ Checks distance to underwater objects
- ◆ Scans for obstacles
- ◆ Ideal for use in inflatables or kayaks

DIVE-SCAN™

The **Dive-Scan™** by Vexilar makes a great addition to your diving bag. This rugged, reliable and very affordable personal sonar lets you accomplish a variety of tasks with a simple push of the button.

Need to check the water depth before going in? Hold the Dive-Scan™ underwater, point at the bottom, and push the button. When you release the button the sonar will hold your last reading for 10 seconds so that you can comfortably look at it.

While diving, you may want to know the distance to the bottom - simply push the button and check!

This compact personal sonar is extremely reliable and so easy to use. It features an automatic shut-off to avoid draining the battery.

To measure the distance or check the water depth, you can be sure that this personal sonar will come in handy dive after dive.

The Dive-Scan™ comes standard with a 1-year warranty backed by a company which has been supplying high-tech diving products to commercial and military divers for over 15 years.
