LEADERS IN
MISSION CRITICAL
PRODUCTS
FOR 25 YEARS

ABOUT US

RJE International celebrates 25 years of providing mission critical products for underwater applications in military, commercial, and scientific markets. RJE has a long-term track record of developing products specifically for Special Forces and EOD divers. RJE has customers and service centers in over 50 countries and is focused on underwater acoustic relocation/tracking & diver navigation and sonar systems.

WORLDWIDE SUPPORT

RJE is working to provide our Sales Reps and Dealers with more tools. Our website features a Dealer Locator for assisting potential customers. It also provides access to a portal with downloadable product imagery, logo's, press releases and a variety of digital collateral. We also have continued media coverage to promote RJE International to your customers. For the latest with RJE, follow us on Facebook and Twitter.

Leaders in Mission Critical Products

For 25 years, RJE has equipped quality acoustic navigation and tracking systems for divers and subsea vehicles, as well as ocean underwater communications for monitoring and environmental independent monitoring.

UNDERWATER RELOCATION & TRACKING DIVER SONAR & NAVIGATION SYSTEMS

- 1991 RJE International Provided Customized Underwater Tracking Systems for the U.S. Navy
- 1997 Awarded the prestigious Navy 500
- 1999 Awarded RJE Navigation for Diver Safety

RJE International to exhibit at ADS Warrior East
Visit Booth #2105

RJE International is showcasing the new DS2000 Diver Sonar for sale elsewhere, certified to STRANCO 2007 for low magnetic signature. The DS2000 Diver Sonar also includes under water remote video providing the diver with additional safety capabilities.

A Bluetooth® enabled based location plotting and analysis software allows the operator to record the results and analyze the data. Come see this exciting new DS2000 Diver Sonar.

RJE International understands the importance of "mission critical" products. For 25 years, the RJE Diver Sonar has been recognized as a leader in the field for your subsea needs. We receive and manufacture ready to be U.S. Coast Guard, proven high quality technical solutions for the military, commercial, and scientific divers worldwide with a focus on underwater acoustic navigation/tracking, diver navigation and search systems.

To learn more about our ADS Warrior East or for more information contact: **UP of State, Bruce O'Donnell at 800RJEUSA.com or call 949.727.9399**

YOUR COMPLETE RESOURCE FOR TRACKING PINGERS

RJE is the only one to provide a full range of systems for all modes of acoustic tracking.

Surface AUV **Diver ROV**

We have what you need, all backed by 25 years of providing Superior Products for Critical Needs.

It's a big ocean - when you need to find it quickly, your solution is RJE. We also carry a full line of acoustic pingers.
