**Housing Material:** High Impact, Polycarbonate

**Dimensions:** 16.5cm(H) x 35.6cm(W) x 27cm(D) 6.5in  
(H) x 14in(W) x 10.6in(D)

**Weight:** 6.8kg (15lbs)

*Specifications are subject to change without notice*

- ◆ **U.S. Navy approved**
- ◆ **Includes listen mode**
- ◆ **Record-out jack for recording**
- ◆ **Portable & lightweight**

The **DRS-100B Diver Recall System** is U.S. Navy Approved and is used by Naval Special Warfare units, as well as by salvage divers around the world. It alerts all divers within range with either voice, a solid tone or an intermittent tone. You can also feed sound into the water, i.e., music, via a line-in jack on the front panel.

The DRS-100B also has a "Listening Mode," it allows the user to listen to marine, or man-made noises. A recording jack receptacle allows the user to easily connect the unit to a recorder.
